Fire-Retardant Wood Chemistry's Latest

Coinciding with the statement of United States Builders and Insurance men that the U.S. fire losses for 1935 amounted to 10,000 human lives and cost \$245,000,000 comes a report from the National Board of Fire Underwriters an assurance that there is such a thing as fire-retardant wood.

The wood tested by the Board was red oak and maple which had been thoroughly and uniformly impregnated in pressure tanks containing ammonium salts, a fire-proofing compound which it is not generally known has actually been procurable in Canada for at least two years. The treated wood is almost the same in appearance as ordinary wood but is a little heavier because of the salt content. It is easily toolled and takes varnish well.

The investigators of the Board tested the treated wood under conditions that sent untreated walls and floors roaring up in flames while the treated wood did not burn at all but after a long period of exposure to the fierce heat was deeply charred. Not once however, did the treated wood flame or aid the spread of combustion. The National Board of Fire Underwriters' final verdict was that the wood was non-inflammable.

The Uses of Water

"Mr. Tostmaster, ladies and gentlemen," began the Kentucky colonel, "I am asked to respond to the toast 'Water, the purest creation of God.' My friends, I have seen water glisten in tiny tear-drops on the sleeping lids of infancy. I have seen it trickle down the dimples of youth when soft lips yielded to love caresses, and on the whitened cheeks of age. I have seen it drip like a shower of gems from the blades of grass on the resplendent dawns of a new day. I have seen it tumble down mountain sides in

MANTRIES of purest crystal snow spreading over glen and vale, the smooth sparkling ice surface of rivers and lakes and the frozen splashes of sleigh-bells remind one that the season for beneficial and enjoyable winter sports is again at hand. Other forms of recreational activities are, for the time being, quite forgotten. The toboggan, skis and sled are taken from their summer stowage and properly conditioned for the season's festivities. Children whose years scarcely

exceed the finger numerals of a hand, youths of teen age, adults of middle life and frequently those whose years are well advanced toward the allotted span of life, all join in the merriment of typical Canadian winter sports.

During the winter season every settled area in Canada is as easily accessible by railroad as in the summer and autumn months. Many lines of provincial highways are kept free of snow enabling the motorist to reach cities, towns and villages of international repute as winter sport centres. Nearly everywhere are natural sites for skiing, snowshoeing and tobogganing. Covered rinks for hockey, skating, and curling are found in cities, towns and busy summer centres, while open-air rinks are legion. Carnival fairs, including bungee, toboggan racing, hockey matches, figure skating, competitive, ice-dumping contests, snowshoe races, and fireworks displays, add greatly to the enjoyment of a Canadian winter vacation.

The National Parks of Canada, Department of the Interior, Ottawa, will gladly supply information pertaining to Canada's winter sport attractions.

ARROWWOOD ITEMS

"For Pete's Sake!" you will be interested in future developments.

We regret to report that Pat Coleman is confined to his home with an attack of rheumatism.

The W.A. of the United Church will meet this afternoon at the home of Mrs. Gaylen Jones.

The village election on Monday resulted in a majority for Allan Phillips. Only a small vote was polled.

Miss Marjorie Hill, of the Wavette Beauty Salon, Vulcan, will visit Arrowwood in the near future. For particulars apply, Miss Marion Coleman.

For Sale—Board and Brooming House, improved property, no opposition, good water. Apply J. S. Culp, Arrowwood.

The banquet for John J. McFarland to be held in Calgary on Friday, Feb. 19 will be broadcast over stations CFCN and CJOA.

Murray Moore, who has been working at Elmore for the past few months, is a snow-bounded visitor in Arrowwood, on his way home to Retlaw.

Mrs. Jess Hanson and twin arrived from Chicago last Friday on an extended visit at the home of her parents, Mr. and Mrs. A. A. Chigard.

By means of tractor, truck, shovel and what have you, the boys from the Buffalo Hills Ranch arrived in Arrowwood Thursday for the first time since the storm forced them into hibernation.

The recent severe cold spell has curtailed all community doings such as entertainment picture shows, hockey, curling and skating. No doubt there will be much activity when Old Sol makes his presence felt again.

Arrowwood district was well represented at the Banff winter sports, there being 15 local athletes. Those there were Mr. and Mrs. T. T. Williams and family, Mr. and Mrs. R. McBride, Mr. and Mrs. Houm, Mr. and Mrs. Pinkerton. They were all guests of Mr. and Mrs. Bob Williams who are residing at Banff.

Look Before You Leap, Girls!

1936 is Leap Year. There was a severe slump in the marriage mart during 1935. 1936 gives the ladies the privilege of proposing without losing face.

Ladies, we have no objection whatever to your proposing but don't forget the prerogatives that go with it.

As well as asking for his hand and heart you will get the privilege of running after your sweetie and buying his candy and cigarettes, as well as buying the tickets to movies and dances. Gasoline of course is given away to couples in love, and the upkeep of the car is usually trivial—perhaps your mother will have to pay that.

We are willing to put a few things away in our hope chest and might persuade our friends to put on a shower or two for our benefit. We will get a few pots and pans ready, but we expect you'll have a home ready to move into, and a honeymoon of course is in order. Where we will go depends on the size of your pocketbook honey, and regarding an engagement ring, some of us don't care for a diamond smaller than a pea. The expenses of the ceremony will have to be looked after, and as long as you have a steady job, we don't mind you proposing.

We don't wish to break your hearts by refusing our hands but look before you leap, even if it is 1936.

CFCAC's New Voice

The new voice to be heard giving the station calls at CFCAC in Calgary is Tom Derbyshire, assistant to chief operator Hal Holloway. In the first week Tom spent at least three all-night sessions learning the intricacies of CFCAC's Marconi equipped transmitter.

Marquis Annual Meeting

The annual meeting of the electors of the Municipal District of Marquis No. 167, will be held on Saturday, Feb. 15th, at 1 p.m. in the I.O.O.F. Hall. Nominations for councillor will be received from 8 until 4 p.m.

Wanted—Two Nobleford sub-packers (known as the Campbell packer), 20-28 ft. run. Cash. For particulars apply, Resource Office.

Four Years Ago

The following items were taken from February 1932 issues of the Resource.

The following eucers took part in the High River Bonspiel: Hales, Christenson, McIrvine, J.P. Beagle and Heskeath Mackie Jr., R. Culp, Dahl.

Mr. Ralph Leonard who left Arrowwood to accept a position in a garage at Calgary, is now attending Garbutt's Business College.

Wheat, 1 northern 41c; Oats, 2 C, W. 18c; Barley 22c; Flax 78c; Butter 12c per lb. and eggs 10c per dozen.

The Arrowwood Hockey team surprised many an ardent hockey fan by holding the Gunners of Gleichen to a 5 to 1 tie in Gleichen.

Russel Terichow took over the trucking business from E.B. McKinley this month.

P.Y.P.D. Notes

All the young people of the district are invited to the B.Y.P.D. Valentines Day Party which will be held (D.V.) in the church basement next Saturday night, Feb. 15th, at 8 p.m. The committee have been busy making plans and promise an enjoyable evening. Lunch will be served.

Mrs. P.H. Coleman, Teacher of Piano, Harmony, Counterpoint and Forms, has resumed all classes. Piano Class every Tuesday at 8.00 in the Arrowwood Consolidated School.

Side's heard over CFCAC at 3 p.m.

Counted in the daily audience are, by their own admission, an obsequious blonde, a phlegmatic brunette and a flamboyant redhead, whose nationalities are, in this order, Scotch, English and Irish. Now these young ladies have banded themselves together as charter members of the Benevolent Order of the Suffering Daughters of the Empire Crossing the Dead Sea on a Frigate. The purpose of the organization is to promote bigger and better laughs to help make this world a happier place to live in. Being shut-ins themselves, in the same hospital and enjoying Pat's daily half hour of cheerful brightness, they thought to spread happiness among other shut-ins by means of this fraternity of which they were the first. They made Pat President and which bids fair to becoming a flourishing Greek letter society of good will.

Death of F. Ritchie

An aftermath of the Great War was evident Friday last when Fred Ritchie of the Queenstown district took his own life while being employed on the farm of William Oaler. Snell-shocked in the War, Ritchie never fully recovered from the effects, and to this attributed the cause of the tragedy.

The War Veteran was 45 years of age, being well known throughout the Marquis Municipality. He worked on the municipal grading outfit for some time. Dr. G.H. Farquharson, coroner, and Corporal Ashby, R.C.M.P., both of Gleichen, investigated the untimely tragedy.

CROP TESTING PLAN

Four radio-broadcasts dealing with better seed and crop improvement will be given by Mr. H. G. L. Strange, Director of the Crop Testing Plan, as follows: Tuesday, Feb. 11th.—The use of rusted and frosted grain for seed. Feb. 15th.—The standard varieties of wheat, oats and barley. Feb. 22nd.—How to buy and use good seed. Mar. 2nd.—Cleaning and treating seed—use of the fanning mill.

Times of broadcasts: C.I.G.X.—YORKTON . . . 2.00 to 2.10 p.m. C.F.A.C.—CALGARY . . . 12.15 to 12.25 p.m. C.J.C.A.—EDMONTON . . . 1.05 to 1.15 p.m.

SEARLE GRAIN COMPANY, LIMITED

CARD OF THANKS

I wish to thank all those who supported me in Monday's village election.

Allan Phillips

Do This To Ease Sore Throat Instantly

Relieve Soreness in Three Minutes This Easy Way

For quickest relief from sore throat you've ever known, follow directions above.

The "Aspirin" sets like a little anesthetic to ease throat pains; and at the same time soothes irritation and soreness.

Doctors endorse this treatment. For it provides a medication, and it DEMANDS AND GETS

1. Crush and mix "Aspirin" Tablets in 1/2 glass of water.
2. Gargle thoroughly—your throat will swell, allowing a little to trickle down your throat. Do this twice. Do not use mouth.

folks prefer to combat a sore throat. Try it. Results will amaze you.

"Aspirin" is the registered trademark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

"ASPIRIN"

Washed, pure Fleming that if he jacketed to live he had better leave the district.

(Now Go On With The Story)

CHAPTER VI.—Continued

"You bet!" Bush warned earnestly. "From now till I see water backed up in that dam—if you build one and if it really does—I wouldn't touch a soul if I was in your boots Link. But say," he added, "no harm to the house to depart, if things get real tough, we both got smoke-irons that usually work when we put the trigger."

"You mean you got a smoke-iron too—but remember that anyhow. So long Link."

He watched them out of sight in the darkness. Then, shrugging his shoulders, he rode for the ranch house. Mention of the dam had reminded him, but Buz Hamilton and his sister, Helen, Link and Kilgo stay behind to give him his expert opinion in favor of the scheme, to reverse the dam plan. This scheme Buz, who accuses Fleming of trying to induce his sister and, as he saw it, risk his "spread," Buz shoots at Fleming in an uncontrollable fit of anger, but Buz Hamilton's, Link's forearm, is shot in the stomach, and Fleming is unharmed. Buz is arrested. The doctor attends Fleming and dresses his wound. Kilgo tries to induce Link to drop his scheme, and when Fleming refuses, gives a signal by taking his hat, and Link is shot at from outside the house.

Link kills Kilgo out of the house. Buz Hamilton is sentenced to three years, imprisonment in the penitentiary, and Link is released.

On his way home after the trial of Buz was over, Link meets Skok Torney, who starts telling him that he will withdraw his approval of the water scheme. Just as he was about to tell the name of the man who had forced him to do so, Torney is shot and killed by the man who had forced him to do so, and Link is shot at from outside the house.

stop again. His watery grey eyes went round. His cavernous jaw slackened, and for once Halby forgot to tug at his ear. Veterans of many a cowardly accident, he reasoned instantly that someone must be inside the ranch house, hence the explosion.

Already the fire groped hungrily toward the roof. Slink dashed to the main barrel, found a thin sliver of ice on it, and broke it with a hard fist. He splashed the chit water over his clothing in a swift effort to soak himself. Then without hesitation he rushed to the front door of the house, and shading his eyes from the fearful heat, peered inside for sign of his employer.

Face-down and utterly unconscious, Slink sprawled in the track of the fire that gnawed into dry flooring. Halby sprang to his side. Kneeling, he pulled the rancher's arm around his neck. Then he heaved Fleming's knees and started outside with his burden.

Once he stumbled and almost dropped his employer. Somehow he kept on through jolting, lurching of fire that made the clothes of both men smoke as though any instant they would burst alive with flame. The sharp night wind struck them like a blow, its smart and sting painful to their scorched faces.

Link moaned, "Hang on!" he mumbled, coughing from the heavy smoke.

As he reached the corral and sank exhausted beside the juniper rails, hoofbeats sounded near. A man swept around the curve of the enclosure, and another, Waco Byrne, the best night hunter on the Star Loop owner. No words passed between them for a moment; then Link sighed and lay back.

"Gone," he muttered dully.

She strove to swallow the lump in her throat. "Roger and I heard about Skok Torney being shot. Of course I knew you hadn't done it, and I tried to stop the talk in town. Now the plans are buried."

There was a short silence during which Waco tipped out of the cabin. "Goah!" he muttered to himself, that look she gave him was worth getting burned for!

"It means we can't start the dam this fall. And next Spring it will be the same."

It means hiring extra men, for we won't be able to spare any from our steers. There's the cost of new

"We can't do anything about it. The wind is changing, though. There's a chance we might be able to start the dam."

"Plans?" She stared, not comprehending at once. Then she flew out of the bunkhouse.

"Take it easy Link. I'm sending one of the boys for Doc Slick. I'll finish them out cuts right off."

Byrne frowned.

When Helen returned her steps were slow with discouragement, her shoulders drooping. Hesitance was in her brown eyes, as filled with pain, they met those of the Star Loop owner. No words passed between them for a moment; then Link sighed and lay back.

"Gone," he muttered dully.

She strove to swallow the lump in her throat. "Roger and I heard about Skok Torney being shot. Of course I knew you hadn't done it, and I tried to stop the talk in town. Now the plans are buried."

plans, too, and the loss of the alfalfa we'd have." The girl stopped. "How did this happen, Link?"

He told her as much as he knew. "I tossed a match in the stove and waited to see the pine shavings catch. Then I closed the door and stepped back to the plan again. Had them spread out on the table. It looked pretty plain that we could alter Torney's work a little and build our dam upstream. All the directions were there how the job should be done."

He scowled past her, toward the door. "Why should a stove blow up like that? The pipe was open. There must have been dynamite in it. Holes."

"Dynamite!" A shudder racked her limbo figure. "Oh Link, I was—I was afraid you'd—"

"Mr. Lincoln, Fleming, Esquire, here!"

(To Be Continued)

Mechanical Ears

New Method Of Piloting A Plane By Sound

Mechanical ears for piloting a plane by sound alone, an entirely new principle in aviation, were described to the Institute of Aeronautical Sciences, Long Beach, of the De Flores Engineering Company, of New York, who has spent three years developing them and down many hours unfolded, gave a "ground demonstration" with the instruments.

"It is possible," Flores said, "that a blind man, with his more accurately timed hearing, might become a better pilot than one who can see."

All "blind" flying heretofore has been done with the eyes, watching instrument boards. But with "mechanical ears" the pilot flies wholly by listening to a pair of ear phones. He can use them in fog, clouds, darkness, on any kind of plane.

The phones are connected with a tiny propeller, set far out on the leading edge of one wing. This propeller is the size of a toy pin and makes the toy, it changes speed with acceleration of the plane.

It runs faster if the plane dips, slower if it ascends, steady if level. The propeller drives a little generator. This generator hums in the pilot's ears.

The new noise shirker for dip, lower for ascent, tells him whether the plane is level. It tells him quicker than the eye could do the same thing. For the electric current is amplified, so that a slight deviation shrieks its warning.

In the phone circuit there is a small gyroscope, set to indicate the slightest turn of the ship to left or right. If the plane turns, this gyro will off one ear phone.

The pilot then knows he is starting to turn toward the side on which he still hears the hum. Here, too, the sound warning can be quicker than the eye.

Use Royal Yeast Cakes and you'll be sure of perfect leavening. That's because each cake contains individually protected by its own airtight wrapper. No other dry yeast has such protection. You can have with Royal Yeast Cakes the day you buy them—or weeks later—and count on the same fine results each time.

"The Grain Forum"
Radio Programmes

The Grain Forum radio speech contest is attracting a very great deal of interest in the country.

Judges who have consented to select the prize winners are:

Professor A. Savage, B.S.A.

D.V.M., M.R.C.V.S., Dean of the Dept. of Agriculture, University of Manitoba;

Mr. L. T. Chapman, Editor "Nor West Farmer";

Mr. P. M. Abel, Associate Editor, "Country Guide."

The programmes will be broadcast every Tuesday night over stations CFCN Calgary,

CJCA Edmonton and CJOC Lethbridge 8 till 8.30 p.m. M.S.T.

Up to date talks have been delivered on:

"The World's Foodstuffs and the Place Occupied by Wheat";

"What the Grain Exchange is and Does";

"What the Grain Exchange is Not and Does Not Do";

"Some Factors Affecting the Price of Wheat";

"Factors that Determine the Price of Wheat";

"Canada and Her Competitors."

During the ensuing few weeks the following subjects are down for discussion:

Feb. 11—The Country Elevator

tor:

Feb. 18—Some Wheat Problems. (An informal discussion between Maj. H. G. L. Strange and Mr. L. W. Brookington).

Feb. 23—The Canada Grain Act.

Mar. 3—The Futures Market.

A large number of queries have been received on problems of grain marketing and grain growing. All are answered and many of the more interesting are answered over the air.

This feature of questions and answer is proving very attractive.

Brethren Church
Notes

Sunday School 10.30.

Morning Worship 11.30

Young People's Service 7.00

Evening Service 6.45.

Next Sunday evening's program will be in charge of the side with Grace Brubaker as Captain. The subject of the evening will be "Witnessing". The program will consist of two chorus numbers, a short sketch by four boys, a vocal solo, a story, a reading and a short talk. Come out folks and boost your side.

Following is the program of service for the closing of the Arrowwood Bible School. The service will be held in the Church of the Brethren on Sunday afternoon, beginning at 2 o'clock. Those from the country should bring their lunches along to the church in the morning and remain for the day.

Piano Solo, Prelude—Virginia Cawley.

Call to Worship, Psalm 95

—Sarah Duncan.

Song Service.

Solo—Glen McCune.

Scripture, Jno. 6:27-40 — Rosella Hoyer.

Prayer—Eva Grabbill.

Song—Music Class.

Talks, Students—Mary Grabbill, Edna Beagle, Ruby Hall, Leroy Graham.

Duet—Ruth and Grace Brubaker.

Talks — Mr. Cawley, Mr. Board, Mr. Suttle.

Duet—Mrs. Wicand and Leroy Graham.

Talks — Mr. Brubaker, Mr. Holenberg, Mr. Culp, Rev. Mr. Wicand.

Prayer Service — Dorothy Brown, Mr. Vancil, Glen McCune.

Bless be the Tie that Binds.
